

[IS216] Extra Exercises - Week 2 - CSS Basics

Objectives

- To understand how CSS enables styling of HTML elements
- To apply the use of CSS to HTML web pages.

Instructions

- Questions with no asterisk mark are easy peasy.
- Questions marked with * are slightly challenging.
- Questions marked with ** are challenging.
- Questions marked with *** are very challenging.

NOTE: If you spot any mistakes/errors in the questions, please contact your instructors by email and state the issues. We will try to address it as soon as possible.

Question 1 – Fruit (*)

Go to `fruit` directory.

```
|--fruit
    |-- apple.jpg
    |-- fruit.html    (to do)
    |-- fruit-pic.jpg
```

Complete `fruit.html` with appropriate CSS styling such that the following will be displayed on a web browser. This web page has a side menu bar that will not scroll with the content on the right.

- benefit 6 ...

Healthiest Fruits on Planet

1. Grapefruit
2. Pineapple
3. Avocado
4. Blueberries
5. Apple
6. Pomegranate
7. Mango
8. Strawberry
9. Cranberries
10. Lemons

Question 2 – Learn (*)

Go to `learn` directory.

```
-- learn
|
|-- images
|   |-- {various images}
|
|-- learn.html
|
```

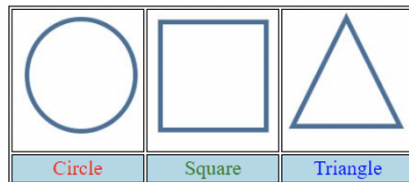

1. Complete `learn.html` with appropriate CSS styling such that the following will be displayed on a web browser (in the main box)

Learn About Shapes, Colors and Numbers

Shapes

Font: Arial

Color: Darkmagenta

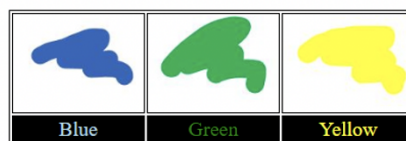

Numbers

The width of the margin is 100px.

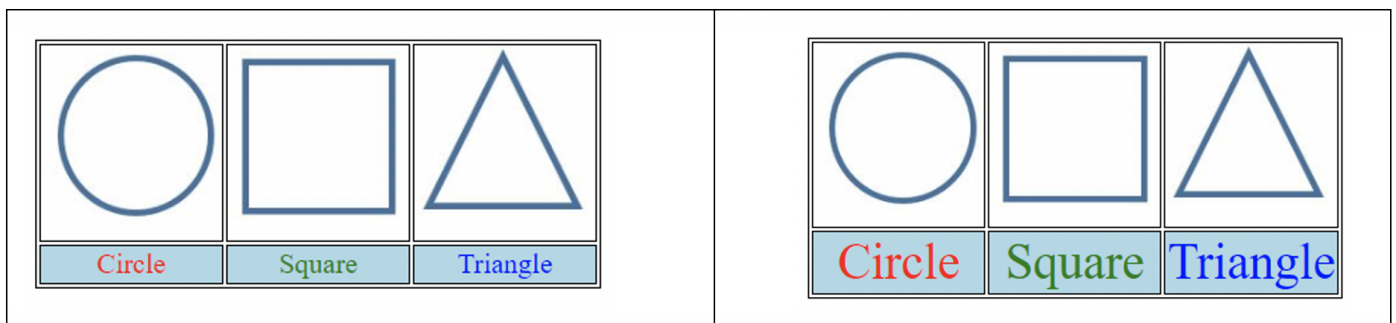

Font: Courier New

Colours

Font colors: Blue, Green and Yellow

2. The font size of the row in the table will increase to 30px when the user does a mouse over.

Question 3 – Marketplace (**)

Go to marketplace directory.

```
|-- marketplace
|
|   |-- images
|       |-- coffee.jpg
|       |-- fruit.jpg
|       |-- marketplace.jpg
|       |-- veg.jpg
|
|   |-- marketplace.html
|
```

1. Complete `marketplace.html` with appropriate CSS styling such that the following will be displayed on a web browser.

MARKETPLACE

Welcome to my Marketplace

Fruit Section

The list of fruit available are as below :

Name	Qty	Select
Banana	6	☐
Peach	12	☐
Orange	5	☐
Apple	2	☐

Vegetable Section

The list of vegetable available are as below :

Name	Qty	Select
Cabbage	8	☐
Lettuce	7	☐
Spinach	3	☐

Drinks Section

The list of drinks available are as below :

Name	Qty	Select
Coffee	3	☐

Submit

2. To make the web page more interesting, use CSS to display a blue color box with a white tick when the user clicks on each checkbox. An example is shown below.

Fruit Section

The list of fruit available are as below :

Name	Qty	Select
Banana	6	☒
Peach	12	☒
Orange	5	☐
Apple	2	☐

Question 4 – RecipeHub (**)

Go to `recipehub` directory.

```
|-- recipehub
|
|-- recipehub.html
|-- recipehub.css
```

1. Complete `recipehub.css` with appropriate CSS styling such that the following will be displayed on a web browser when `recipehub.html` is loaded.
2. The steps are listed below:
 - The header spans the full width at the top of the page.
 - The nav links sit in a single row, evenly spaced.
 - The recipe (main) content and the sidebar sit side by side, with main roughly twice as wide as the sidebar.
 - The four stat blocks in the meta bar sit in one row, spread across the card.
 - The two sidebar cards stack vertically with visible space between them.
 - The footer spans the full width at the bottom, with the site name on the left and the copyright text on the right.

Carbonara

A Roman classic — silky egg-yolk sauce, crispy guanciale, and a cloud of Pecorino Romano.

25 min
TOTAL TIME

4
SERVINGS

Easy
DIFFICULTY

620
KCAL / SERVE

Ingredients

- 400g spaghetti
- 200g guanciale
- 4 egg yolks
- 1 whole egg
- 100g Pecorino Romano
- 50g Parmesan
- 2 tsp black pepper
- 1 tsp sea salt

Chef's notes

The only secret is temperature control. Too hot and the eggs scramble; too cool and the sauce won't emulsify. Remove the pan from heat before adding the egg mixture.
